Guided by direct feedback from our customers and users, SIRS® Issues Researcher and SIRS Discoverer® are getting a make-over in 2019, helping student researchers get better results. With a simple, intuitive organization, a more consistent user experience with your other ProQuest products and a mobile-first interface, the SIRS resources you and your users love are being redesigned for today’s student researcher.

**DESIGNED TO EMPOWER NOVICE RESEARCHERS**

SIRS Issues Researcher and SIRS Discoverer new features include:

- More visual appeal to engage students in their research
- Easier discovery of Leading Issues and SIRS Discoverer Topic pages
- Trending issues and topics right on the home page
- A new ‘Famous People’ section in SIRS Discoverer, with short biographies created by our editors
- A mobile-friendly interface tailored to skills and behaviors of novice researchers
- Ability to cross-search SIRS with other ProQuest products via the award-winning ProQuest platform, boosting serendipitous discovery
- A user experience more consistent with other ProQuest products, like eLibrary
- Higher prioritization in search results of high-use, helpful documents
- Integration with Microsoft OneDrive

**PREPARE FOR A HEADACHE-FREE TRANSITION**

The redesigned SIRS Issues Researcher and SIRS Discoverer debut Summer 2019. We’re making the transition easy for you!

- Current URLs will auto-forward to the new product URLs after upgrade. No preparation required.
- Authentication methods will remain the same
- Same great content and same great value – most customers will experience no price change
